Dear Madam:

The Italian State Tourist office has just communicated with us with regard to your collection of coins. We are much interested, and would be glad to hear futher from you in regard to them.

Our President, Mr. Edward T. Newell, is particularly interested in Greek and Roman coins, and I would suggest your writing to him him direct at the above address, should you contain any of these pieces in your collection.

I am enclosing leaflets with regard to the Society's aims and its Museum.

Appreciating your thought for numismatic organizations in the United States,

Respectfully yours,

Curator
